## CENTRAL COUNCIL FOR RESEARCH IN HOMOEOPATHY

Central Council for Research in Homoeopathy, autonomous organization of Ministry of AYUSH, Government of India undertakes research and development in Homoeopathy. The objectives of the council include formulation of aims and patterns of research on scientific lines, to undertake research or other programs, prosecution of and assistance in research, propagation of knowledge and measures related to cause and prevention of diseases, to conduct research in fundamental and applied aspects, to assist institutions in research, with emphasis for covering rural population in the country and to collaborate with other institutions, and disseminate knowledge through publications etc. Systematized research in Homoeopathy is undertaken by the Council in the broad areas of clinical research, drug standardization, drug proving, clinical verification, fundamental research and public health & epidemics. Council is promoting integrative and interdisciplinary research to enrich the scientific base of Homoeopathy and has undertaken studies in collaboration with institutes of allied sciences specially in the field of basic research. Specific mechanisms in terms of publications, organizations of seminars, conferences, CMEs and participation of Council in scientific and public health programs have been established to ensure research dissemination and translation of research outcomes for benefit of practitioners, academicians, researchers and public.

CCRH has conducted more than 100 clinical research studies mostly multicentric, including observational studies, comparative studies and randomized controlled trials. The research protocols have been developed in consultation with experts of Homoeopathy and modern medicine and evidence based research outcomes have been published in indexed and non-indexed journals. Standard treatment guidelines are being developed on various clinical conditions and are available on the website of the Council. Drugs proved by the Council are verified clinically to develop their therapeutic potential. Council has introduced 15 new drugs and which are also incorporated in the Homoeopathic Pharmacopeia of India. The standardization parameters of the old and new drugs have been developed for their inclusion in the homoeopathic pharmacopeias and development of standardization parameters of finished products is ongoing. Council has contributed

standards of more than 300 drugs. Clinical validation of drugs included in the Essential Drugs List Homoeopathy is being conducted on identified clinical conditions using modern statistical approaches. More than 40 studies on basic research have been conducted in collaboration with institutes of excellence, whose results have been published.

The Council has published more than 400 research papers in journals in India and abroad. The Council has also developed the Indian Journal of Research in Homoeopathy, which is an online open access journal indexed with the Directory of Open access of Journals and Index Copernicus. The journal is registered with Baidu Scholar, CNKI (China National Knowledge Infrastructure), EBSCO Publishing's Electronic Databases, Exlibris - Primo Central, Google Scholar, Hinari, Infotrieve, National Science Library, ProQuest, TdNet as its abstracting partners. Council has also taken up public health programmes as per the directions of the Government of India. Subsequent to the National Campaign on Homoeopathy for Mother and Child Care, public health program on Homoeopathy for Healthy Child was undertaken on research mode on pilot basis. Under the Swasthya Rakshan program of the Government of India and special programmes for empowerment of vulnerable populations, health care services through health camps, outreach OPDs, special clinics etc. are provided to identified areas in rural areas, tribal areas, villages, urban slums, etc. Council has more than 100 priced and non-priced publications for professional's academicians, researchers, students and general public.

In order to promote quality research and to recognize contribution in development of Homoeopathic sciences, CCRH with the approval of Ministry of AYUSH, has initiated the scheme of felicitation and awards to achievers for their contribution in growth of Homeopathic system of medicine. The focus of the scheme is to recognize excellence in research in Homoeopathy at individual level, within organized institutional settings. The Awards were launched in 2016 and are in four categories viz. Lifetime Achievement Award, Best Teacher Award, Best Research Paper Award and Young Scientist Award. The Lifetime Achievement Award recognizes distinctive, arduous contribution in research, practice and academics. The Best Teacher Award seeks active contribution in research translating to academic

excellence. Best Research Paper award is for peer reviewed publications in Homoeopathy research in recent years which is of high quality in terms of study design, conduct and publication standards. The Young Scientist Award recognizes upcoming talent in Homoeopathy research, which has a potential to steer progress of Homoeopathy in the country in coming years.

The awards are open to professionals not only from India but for other countries, who have active contribution in Homoeopathy. The applicants can apply/nominate applicants (within the scheme provisions) in response to the advertisement issued in national newspapers and on Council's website.

## BEST RESEARCH PAPER AWARD IN HOMOEOPATHY

### *Preamble*

The Award is in recognition of the importance of published research papers for developing, promoting quality contribution to research and writing among scholars and disseminating knowledge for the benefit of current and future practice of Homoeopathy. The Award aims to celebrate individual excellence in research.

### *Category of Awards*

The awards (one each) are given in following fields:

- i) Clinical research
- ii) Drug research
- iii) Literary research

### *Awards Carries*

- i) Cash award: ₹ 50,000 (Rupees Fifty thousand only)
- ii) Certificate of honour

### *Eligibility:*

- i) The award is to be given to a scientist and researcher working in any Institution in the country and abroad for paper that substantiates a new and novel idea or approach contributing to the cumulative knowledge base of the field and is likely to inspire fellow scholars in their research made primarily in the field of Homoeopathy.
- ii) The paper must have been published in peer-reviewed research journal between January 2015 - December 2017.
- iii) The nominee should not have presented for similar award elsewhere for the same paper.
- iv) In case of a joint research work, the applicant for award shall furnish a No Objection Certificate from other contributors for application. If NOC is not available, then the affidavit may be submitted by the applicant indicating the same. The role of the individual who applies for the award may be clearly indicated to determine whether major part of the work has been done by that person.

**Criteria:** The assessment is based on the significant contributions made by the researcher to the existing knowledge in a subject area in which he/she is actively engaged.
